

W02 / SUBJECT UPDATE 02

Guadalupe Chapel at Galilee | 18 October 2026 HST

Current sponsor direction: Mary appears only at the central tilma. W02-01 and W02-02 record all four preferred window subjects. Each remains subject to parish and artist review.

Illustrative placement in preview V03

Far left: Christ the Good Shepherd.

Inner left: Saint Juan Diego carrying roses in a plain cloak, with no Marian image on it and no apparition.

Inner right: Saint Joseph teaching the young Jesus.

Far right: Saint Francis with birds.

Exclude Mary from every window, including secondary figures, apparitions and images on clothing. Exact assignments to S01, S04, S05 and S08 remain open; these preview positions are illustrative, not fabrication assignments.

Allocation and preliminary cost basis retained

Four figurative reserves remain 8.64 m² gross; eight quiet lower bays remain 17.28 m² gross. The separate upper band is a 53.01 m² proposed gross envelope, with one 17.28 m² geometric budget proxy. These architectural allowances are not net glass quantities.

The subject substitutions change no area or preliminary arithmetic allowance. SG02 and SG03 use the same figurative rate basis in G01. Final artistic complexity, fabrication, support and complete installation scope still require quotations. No supplier, purchase or construction release is approved.

How to read the following nine pages

The earlier allocation and cost review is preserved. Its one-Guadalupe/three-story subject labels are historical pricing references. Subject Update 02 supersedes those subject assumptions and completes Update 01. Original drawings and earlier images remain archived unchanged.
